DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-6, 8, 10, 11, 13, 14, 18, 21-24, 26, 27, 31, 32, 34, 35, 37, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5.060.910 (lwata).

The Iwata reference discloses a valve comprising a stepper motor 10, a first valve portion 44, a second valve portion 43, a third valve portion 13, a first member/screw 27, a second member having a first portion/plunger (26 and 30) and a second portion 48, a housing (40 and 12), a biasing mechanism/return spring 36, a cover 16, and a terminal connector (see Figure 1). Regarding claims 31, 32, 34, 35, 37, and 40, the claimed methods are inherently performed during the normal use of the Iwata valve.

Claims 1, 5-8, 10-18, 21, 22, and 31 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,460,567 (Hansen).

Application/Control Number: 10/605,875

Art Unit: 3751

The Hansen reference discloses a valve comprising a stepper motor 40, a first valve portion 13, a second valve portion 15, a third valve portion (16, 52, 60), a first member/screw 43, a second member having a first portion/plunger (30) and a second portion 22, a housing 46a cover (50 and protrusion 36, and O-rings/rectangular portions 17 (within C-shaped portions). Regarding claim 31, the claimed method is inherently performed during the normal use of the Hansen valve.

Claims 1-6, 8, 10, 11, 13, 14, 18-24, 26, 27, 29-35, 37, 39, and 40 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,679,201 (Murakami).

The Hansen reference discloses a valve comprising a stepper motor 23, a first valve portion 24, a second valve portion 26, a third valve portion (portion which cover 8 screws into), a first member/screw 23a, a second member having a first portion/plunger and a second portion (see Figure 2), a cover 8, a spring (see Figure 2), and a housing (the engine compartment). Regarding claims 31-35, 37, 39, and 40, the claimed methods are inherently performed during the normal use of the Murakami valve.

Allowable Subject Matter

Claims 9, 25, 28, 36, and 38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Art Unit: 3751

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T deVore whose telephone number is (703) 306-5481. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Huson can be reached on (703) 308-2580. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
